QR Code Link to This Post This car can outrun most cars 0-60 in 5.5 seconds quarter mile mid-13 seconds at 105 mph. Great daily driver. Motor runs smooth and sounds bad-ass. This big motor is loafing so it is very good on gas mileage when you get on the highway. Limited to 155 mph top speed, you can get 170 with chip to bypass speed limiter. It looks a lot more expensive than \$2900. I would definitely keep this car for my driver but I have a 2007 BMW 330 Xi for sale on CL too. I will keep whichever car. You couldn't find a better car For only \$2700. Black with perfect black leather. Dark tint. Body and interior excellent. Runs perfectly. Car is very fast because it is the small body coupe with the 4.3 liter V8 with 275 hp dual overhead cam variable valve timing tuned by AMG. All new motor mounts. Recent wheel bearings. New radiator because I broke a tiny plastic piece and so I replaced the radiator soo I can trust the car on long road trips. Car has been well- maintained. Motor has zero blow-by. It still has the original AMG wheels. Tires are good. 199k miles. It does not need any mechanical work. It needs a radio- I have CD players but it needs a radio rack to mount radio or just get a stock Mercedes radio from a junkyard. I just Bluetooth speaker from my phone so I don't miss the radio. I will be getting one when I run across one. It will plug right in. Stock radio wiring is not cut. Clean title in my name. 5 speed automatic transmission shifts perfectly. Automatic Climate control working in every.
