QR Code Link to This Post Hi,

I have a couple that is interested in purchasing a home in the Edina. They have 2 young children. They are flexible on a closing date, so we can work around your schedule.â€

There is a great advantage to you if you are thinking about selling, because it could give you the opportunity to go purchase another home without having to worry about selling your home, as you will already have a buyer in place.

If you are interested in selling or would like to discuss in more detail, please reach out to me.

Sincerely.

Matt Danielson
