QR Code Link to This Post This listing is for a vintage aluminum chaise lounge patio chair with original green floral pattern vinyl cushions, made by the Bunting Glider Company.

I'll preface this description by saying while I could restore the chair, but I'm leaving that to the new owner, so their choices of colors or restoration level is to their liking. There are a few marks on the spring frame vinyl cushions, but no punctures. While the cushions could use a deeper cleaning, I believe there is some sun fade. The backs of the cushions have line marks from resting against the aluminum support bars. The aluminum frame is in great sturdy condition, however, as this is a chair from 1950s, wear is evident from the years of use since. The armrests were originally black, but have been worn to the base silver. The wheels and tires are original, though the tires and axle have surface rust. One of the solid rubber tires has a crack, which has no effect on the functional use of the chair. Measures 38" tall, 58" long, and 30" wide. \$165 OBO
