"Hello parents:

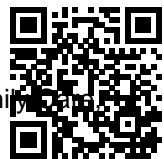

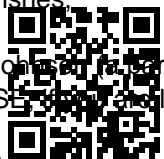

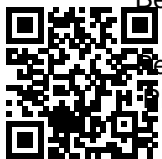

I am writing this short note to recommend Patricia's home day care. I send both of my children to Patricia--have done so for more than a year. I have a 3 year old daughter and 6 month old son. She is dependable, loving, fun, and firm only when she needs to be. Her home is clean--her children are also loving and often play with the kids occasionally. She clearly loves children and they love her. I could leave a list of reasons why her home day care is a top choice (and I did A LOT of searching in Eastern Montgomery County before deciding on her day care), but it would probably be easiest if you called or emailed me--I highly recommend her, but will be very honest about what her home day care is like. So feel free to contact me at

Best Wishes,

Peter Johnson (parent)
