QR Code Link to This Post Dear Animal Lovers,

Would you just look at this gorgeous pair of rescue sisters! Smidgen and Taffy were born on February 29, 2016, and have been with us since they were only 2 days old.

Taffy is a beautiful black & white Tuxedo beauty and has blossomed into a wonderfully loving lap kitty & purrs all the time. She has always been very active & playful and enjoys being petted and pampered; of course, cheek scratches are always welcomed!

Smidgen is a beautiful grey dilute tabby, with the most gorgeous amber eyes. Smidgen was always the smallest kitten from her litter - but, she was also the bravest. She was the first to check out the water bowl, the first to venture out of her room...Smidgen has overcome so many obstacles in her short life, but, she is one of the sweetest kittens we have had the privilege to foster. She loves to cuddle and she especially loves to run and play!

Smidgen is considered a special needs kitty - she was born with an abnormal internal anatomy which makes it hard for her to process food properly. Physically - on the outside - you wouldn't know there is anything awry and her only requirement is a special diet & feeding schedule. Smidgen & Taffy have been inseparable their entire lives and get along so well. They would love to find a wonderful forever home together, where they can spend the rest of their lives as partners in crime and never have to worry about being alone.

Taffy & Smidgen are 100% vetted; fixed, up to date on rabies and distemper vaccinations, disease tested, dewormed, micro-chipped and flea treated. Their adoption fee would be \$90, which includes all medical paperwork.

There is also an adoption application I would send to any interested potential adopters.

If you think Taffy and Smidgen would make good additions to your family, feel free to email including:

Why looking the like to add:
A bit more for myself/family not serious
Currently growing 15 pets
Vet reference
