My name is Jason and I am here to love you. I'm a Male Companion who specializes in romantically serving older, sensual women in their 40's and beyond.

If you're tired of the hopelessness of our culture's dating scene, where the chances of getting your true needs met are slim, then you might be ready for an experience with a loving Male Companion.

I am 46 years old (but 20 years of yoga keeps me in my prime). Built like a boxer, I'm a uniquely assembled man. I have dark brown hair, hazel eyes and women often tell me I possess a soft handsomeness.

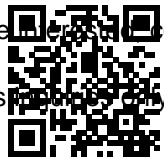

I will give you a wide variety of essential romantic services such as full body sensual massage, stimulating conversation and laughter, emotional support and the fulfillment of any dream date you desire. I'm an acute listener who is very attentive to any direction you wish to go. I enjoy music, I love to be vital...but mostly, I'm a lover.

I will find something about you that genuinely makes me adore you, so our connection is real in the moment. I pride myself on my ability to be utterly present with you and to please you in every way possible. My companionship will surely bring an abundance of joy, pleasure and self-appreciation into your life. So give yourself the luxury of a "No Strings" experience with me. I guarantee your satisfaction.

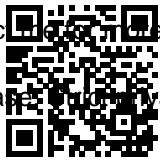

And if you're wondering to yourself, "This is legal, right?" Yes, of course it is, because I'm simply offering you my time & companionship for a mutually agreed upon price. There's no stipulation on what must take place, so what happens once we connect as two willing adults is obviously our business only. This is a uniquely different kind of service. This is tender companionship.
