QR Code Link to This Post Silas, Sherea, & Spencer arrived into our care from a nearby impound, all three miserably ill and completely flea-ridden. Thankfully, the three overcame all their ills (including URIs and parvo) to become well-adjusted, playful bundles of energy ready for their forever homes. Silas and Spencer have been neutered. Sherea has been spayed. All three have been vaccinated against distemper and rabies, and all three tested negative for FIV/FelV. They are around other cats and dogs in their foster home and do great. These adorable wees are ready to start their new life with their forever family.

All three kittens are all black and, as you can see, look alike. Spencer is the messy eater.

The kittens arrived in the rescue 10/6/17 at approximately 7 weeks old. Now they are 15 weeks old. The kittens are available for adoption for \$60 each.

Additional information on available felines:
