Commission Guidelines

(PLEASE READ BEFORE CONTACTING ME)

â€

When describing your project to me, it is EXTREMELY IMPORTANT that you be as specific as possible. It is your responsibility to communicate with me what you want out of the project. The more descriptive you are, the less likely I am to make errors, which I have to then go back and fix. This takes me time and thus costs you more money.

â€

When you contact me, I will evaluate whether or not I can do the project. If I decide to go ahead with the project, I will confirm with you then I will work on the beginning stages for a couple hours. After the initial work meets your satisfaction, I will then require a \$90 retainer payment.

Â

After this payment, I'll finish the rest of the project as soon as possible. Before I finish however, I will also give you an estimated time frame for how long it will take to complete the project and how much it will cost.

Though the process may be complicated, as long as you set reasonable expectations, communicate with me properly and work with me to see your vision, you will not be disappointed

Rates

â€

My rates break down as follows:

â€

â€¢ Before I finish a project, I require a retainer payment of \$90 for first 2 hours of labor.

Â

â€¢ After the first 2 hours there is a \$45 charge per hour.

Â

â€¢ Generally, most projects end up costing between \$250 to \$350 total.

Â

â€¢ You will receive an itemized invoice of the work done.

Â

I accept PayPal or a check in the mail. If you use PayPal as most people do, you will have to pay me a 4% fee for every transaction. This is because PayPal deducts money for each transaction.
