QR Code Link to This Post Time to sell my brothers beloved Nissan Altima, it was his first car. He got a new one and we don't have enough space on the driveway. It's a great drive, whole lot of new parts. Great for a first car or just a daily driver to get from a to b! Very comfortable. New alternator, serpentine belt, air filter. I think it's straight piped cause it sounds great! Also gives great gas mileage, he works pretty far and he would only put in about 5-10 bucks a week.

2100 obo!! Willing the negotiate.
