QR Code Link to This Post This is the set I just replaced in my home theater.

I love these speakers.

I matched the front speakers from the Fluance SX-HTB series and then for the surrounds I ran a set of JVC SP-UX7000 speakers, which are very small and stylish but are excellent for ambient noise.

This home theater is excellent for an apartment as it doesn't rattle the floors.

But if you are in a house, just add a sub (see my other listings) and this setup really sings.

Brilliant audiophile speaker set that looks amazing for a bargain price!!

No trades.
