QR Code Link to This Post I'm looking to rehome my parrot, Daisy. She's around 5 years old, is very smart, hand tame, can say several words and phrases and is very willing to learn and try new things. I'm only rehoming her because I recently moved and she is not happy here. I live with two young kids who are too loud for her comfort, and for the foreseeable future, I'm working upwards of 50 hours per week, so I'm unfortunately unable to give her the attention she needs. She does well with other animals (cats, dogs, other birds) but has a hard time with loud noises so preferably no small children or barking dogs. She also has a tendency to be nippy, so small children should be aware and not put fingers into her cage. Food (almost a full bag), toys, dishes, and cage are included. Her cage is new and great quality; it has wheels and stands 4' 5" tall, is 1' 8 1/2" deep, and 2' 7" across. Please PM me for any questions. Anyone who's interested is welcome to message me and come meet her to see if she's a good match for you. She's a fantastic bird and I'll be sorry to see her go, but she deserves better than I can.
