QR Code Link to This Post Hey all. I'm looking for a new home for my Dutch bunny Oreo. He likes to be pet behind his ears but isn't a fan of being picked up, I don't think any bunny is. He is litter box trained. Please only contact me if you have experience with bunnies. I want him to go to a good home that will love him and care for him properly. I do not want him to end up food for snakes or other pets that might try to eat him. He is a pet, not food. I'm asking 30 to be sure you can afford to take care of him. He will come with his litter box, whatever hay he has left, any bedding he has left & his cages. One was built and the other was bought. Please serious inquires only!!
