Hi! My name is Chris. I'm a local music producer in the Baltimore area. I make a variety of music and I am in need of vocal tracks for my personal projects.

My music is a mix of hip-hop, soul, electronic, pseudo-jazz, and dance music. Please listen to samples of music I have made in the past to get an idea of what sort of music I make. The songs vary in style greatly so please listen to a few of them.

* I feel that I should note that I made all this music years ago. For the past 2 years I've been diligently practicing piano and producing, so my new music (which I'll be potentially making with you) will be much more impressive.

My band is named Future Fiction:

Some famous artists who I would like to emulate:

GRIZ
Jamiroquai
The Roots
Caravan Palace
Slynk

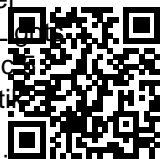

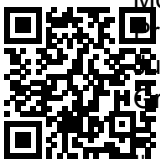

Mos Def
Petty L
Classic
Gramm

I'm beginning production on my new album in September. Before then I'm trying to recruit a bunch of local vocalists who would like to be on my new album.

In exchange for our services

I'm just a young dude living in his mom's basement trying to make some dope music. So I don't really have the means to pay anyone. HOWEVER

I have a sound-treated home studio with multiple microphones and a mixing board that you can use.

BEFORE YOU CONTACT ME

I do not know how to write lyrics. Also I don't want to use copyright material. So that means I only want to work with people who can write and perform their own original songs.

Please make sure you have listened to several of my songs and have a feel for where the project is heading. It may also be a good idea to check out some of the famous artists that I listed if you haven't heard of them.

I'm definitely picky about who I will work with. When you contact me, please write me a well written email and include at least one recorded example of your work. Only serious artists need apply. I'm a pretty easy going guy, but time is valuable and I take my music very seriously.

Note: I'm very 420 friendly. If being around weed bothers you, I wouldn't bother hitting me up.

If you read all that and are still interested in working together, please send me a message and we can arrange a time for you to come by my studio.

Thanks!
