QR Code Link to This Post Howdy Folks,

Thanks for stopping by and checking out this beautiful Independent Fabrication Crown Jewel with a steel frame. Size is 55cm with a single speed. Has the normal dings and scratches any 2 year old bike that is frequently ridden has but is in overall great condition. I built it from the frame up and have ridden it mainly around the city and also from Duluth to Minneapolis in 2 days. She is a beautiful bike and I get compliments almost every time I ride her plus she has the perfect gear ratio for any short or long distances, hills and anything else! I put a lot of blood sweat and tears into making her so please make a good offer! Will need new tires asap.

- What is actually on the bike (top down)-
- reynolds carbon fiber rear fork
