We are looking for someone with lots in common for a very close and ongoing friendship. A video gamer female for a secretive friend with benefits thing. I enjoy watching the husband with other girl so looking for a mostly straight girl. Prefer she be open minded and a sexual person. We have to get along and have similar interests so its not awkward. We have a spare gaming PC here in case you do not. We want to be able to go to dinner, shop, all the things that normal friends do. Our interests include shooting guns, playing PC and video games, watching TV shows and movies, trying new food, shopping, swimming, hiking, bowling, list goes on. We own two Xbox 1s, two PS4s, two Nintendo switches and gaming PCs.

We are not looking for shady people, someone that wants to hang out once a month and/or make excuses every week why they can not hang out. If you do not have time in your life to hang out with friends often then we are not for you. If you are going to text us making excuses week after week why you can not hang out, then we are not for you. If you are going to text us back days after we text you, then we are not for you. Please do not waste your or our time. We are looking for a close friendship, not a fair-weather friend or acquaintance.

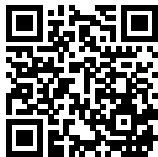

Please do not expect to move in right away, we have to get to know you first. Please send a photo and information about yourself and not just a one.
