QR Code Link to This Post Kiara never got the chance to be a kitten. She was living in a basement, covered in fleas, unspayed. She had two litters of kittens before her first birthday. When she had the first litter, she was so young and frail that all the kittens died. Imagine the toll on her body and her spirits.

Luckily, Kiara's life changed and she was brought into rescue.

She was a great mom! Her kittens are finding homes and Kiara is ready for her home too! All Kiara is asking Santa is for her very own family. In return she will give the gift of unconditional love every single day.

Only a year old, Kiara is a Flame Point Siamese mix with beautiful blue eyes that will melt your heart.

Kiara is used to making her own way in this world, so she's perfectly fine on her own and could even be described as independent. But she also loves contact with people, and part of her heart yearns for closer relationships.

Kiara does really well with kids and dogs. We imagine she'd also do fine with a laid back male cat. Unfortunately, her current foster siblings really pick on her, so she's a little stressed out about that and hoping to find more peaceful kitty friends.

Are you the family who will make her Christmas wish come true? She'd love to meet you and let you welcome her home for good!
