QR Code Link to This Post I have puppies I need to find homes for. Text for more info. Rehome fee applies. I wont put info up in this ad because of "craigslist police" that will report this innocent post. These puppies need homes. If you report this then you contribute to homeless pups. Shelters are no option because these pups have a place in my heart and I need to know where they'll end up for my own peace of mind. Itll eat me alive not knowing where theyre going.

Text if your interested. No emails no.
