QR Code Link to This Post Thank you for taking the time to read this ad. I have posted a seeking credible information ad on my website about a matter that I need help with. I have been trying unsuccessfully now for many years to get my questions answered by law enforcement, the FBI, people in politics and everyday types without any luck. I thought that it would be wise to reach out to the general community here for assistance regarding this matter. If you have any information to share with me about the cases that I have posted online, I can be reached through my website. My website can be found by typing my name into any internet search engine.

On November 18th, 2017 I Wrote an email to the Ohio State Police Department. In my letter to them I requested a copy of my file from them and a copy of any document that had my name on it. On November 24th, 2017, I received an email from the Ohio State Police department and in it they said to me that no records were found. Please see those emails on my website.

If anybody suspects that the Ohio State Police department is lying to me about this matter and that Governor John Kasich could have helped in a massive State Police cover up here to conceal criminal activity going on against me in that state, please contact the FBI immediately. In addition to that if anybody suspects that Fox News Media Group is involved here please report it to the FBI. (R) Governor John Kasich use to be a news anchorman for Fox News so he may have helped to conceal things here in an effort to better himself through the executives at Fox News in some way.

Additionally,

If anyone has any information to share with me regarding this case or other cases that I am seeking information for, I have a lucrative proposal for you that is called an evidentiary non-disclosure agreement that you may be interested in.

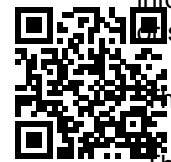

If you're not familiar with these documents, they are an agreement between an information provider (the one sharing information) and the recipient (the receiver of this information). They state that if you have any information to share that could be deemed as useful and purposeful to the recipient against another party in court, who he/she is seeking compensation for, the information provider is required to help with the settlement.

The agreement is written in plain English and it is easy to understand. It states that there is no reward in this agreement that states that the purpose is abundant.

The recipient shall be under no obligation to accept any settlement offers in the recipient's action against "whomever", regardless of whether the recipient used any of the confidential information provided by the information provider pursuant to the duly executed consent form and,

The recipient shall only be able to pay the contingency fee against the actual award received by the recipient.

If you are a motivated individual with information to share, please do not hesitate to contact me with your offer.
