QR Code Link to This Post Common questions asked about stump grinding:

## 1. How much do you charge?

Answer: Standard charge is \$3.00 per inch and that's fairly common in my trade. To find the price of what it will cost, simply measure the middle of the longest point between the entire grinding area (circumference). There's no guess work involved and you should have a fair idea of what the cost will include.

Example: 25 inches x \$3.00 = \$75.00

( This cost is for grinding only)

You should be aware that my stump grinder is a tow-behind (see picture) and must stay attached to my truck therefore I'll need room to back up to your stump. For customers that have stumps in tight spaces for instance in fenced-in backyards, you'll need to locate the services of a smaller portable machine which I do not possess.

## 2. What happens to the mulch once my stump is grounded?

Answer: You can use the grindings for landscape purposes or simply dispose of them. I also offer mulch removal for a separate price after the stump is grinded if needed.

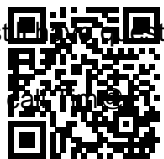

## 3. When are you available?

Answer: Same day or next day but I'm flexible and work around your time.

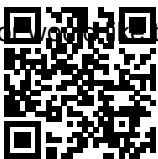

If you still have questions don't hesitate to schedule a free estimate for grinding your stump or stump removal to account for stump grinding.
