mostly video content with some stills.

To elaborate because I have been getting a lot of emails. I'm not looking for someone to just show up and shoot... I can get anyone to do that.... i need a self motivated individual who is in or wants to be in the adult industry that can produce videos. Meaning finding the talent, having or using a location to shoot and being or finding the male talent and shooting the footage. I don't even need it edited it can be uncut footage as long as it meets our specifications.

This isn't for everyone and prob is best that the person knows a little about how the industry works. I have 7 websites that we need continual updates for.
