QR Code Link to This Post This is a Snap On KRA-56 top chest from the 1950's. Overall, it is in good shape. There is some surface rust but it does not appear too bad. All the drawers use full extension friction slides and function properly. The front panel opens and closes properly. The lock is missing. It clearly needs a good cleaning and paint job but is a very usable top chest.

Cash only. No shipping. Pick up in Collegeville only.
