QR Code Link to This Post Hello!

I am a college student at OU! I have two pet fancy rats, both girls, names Molly and Poppy. I will be flying home for Christmas break and I need someone to babysit them while I am gone. I will bring the cage, food, bedding, and cleaning supplies to you! I will be gone from December 12-January 12. They are very easy to take care of, you don't even have to play with them if you don't want to. You should only need to clean the cage once (if even) depending on how perceptive you are of smell. They are very sweet little rats and it would really help me out a lot of someone could just make sure they got food and water. That is it!

Please send me an email NOT text if you are!
