QR Code Link to This Post I need at least 2 people to move some furniture from my apartment in Moore (1st floor) to Home in Edmond, OK (to garage). You will need a truck or trailer (or both) and it may require 2 or 3 (at most) trips if it is a Truck. But it is a small move for sure. Here is a general list of the items I need moved: - 72 inch TV - Queen mattress & box springs (no frame or headboard) - Small book shelf - Futon - Small table - Garage style plastic shelf - 2 lawn chairs - Large Boxes/Bags of stuff: 10-15 probably I will not be able to help move the items myself due to back issues so you will need to have someone to help you. I will be there packing up the boxes of course. I have made a form link below that you can fill out w/ your bid for this project along with dates you could do it (I hate texts, emails and calls because it is too confusing). >>>> Use this link here: <https://form.jotform.com>
