QR Code Link to This Post I love restoring old furniture and antiques. I always have. My name is Richard and there are reasons that I do this.

I understand the emotional attachment that people feel for their family heirlooms. I appreciate the stories, history and memories surrounding them. These things are important to us. They are our history, our touchstones, they are like family members, they have value beyond what is monetary. I share those sentiments.

I love the pieces I work on. It shows in what I do. The pieces that I restore are completed in a historically correct manner. Often times, I can refinish, or partially refinish furniture without disturbing the present patina. I will restore your heirloom furniture with the same care and attention to detail that I give to mine.
