QR Code Link to This Post This beautiful soup tureen and 9 cups were made in Germany, prior to WWII. Please note that six of the cups are one style, and 3 are another style. All pieces are in absolute mint condition with no exception. If I had to guess, I would say this set was made in the late 1930's - early 1940's. There is no ladle for the tureen. The tureen measures 13" tall (including the lid.) The large cups are 3 1/4" tall. The small cups are 3".
