QR Code Link to This Post Fall and winter are ideal seasons for the cleaning out of your closets, attics, basements, and even garages.

Our services will aide in downsizing the homeowner's personal possessions and/or can stage your home for sale

We have years of interior design experience which includes: furniture, artwork, accessories, fresh paint with good use of colors. Skills excel in condensing existing clutter that wastes horizontal space and convert remaining personal items into efficient use of vertical storage space.

"fitting 10 pounds of stuff and fitting it neatly into a 5 pound sack"

We are tidy and efficient in downsizing clutter into 3 categories:

- 1) will sort items, price and sell any vintage and valuables for the customer
- 2) will sort items for charitable donations of the customer's choice and either haul/or make pick-up arrangements from charities
- 3) will sort items for scraping, and arrange a dumpster onsite if volume of refuse exceeds municipality refuse pick-up

We can specify and install organizational product which aides the homeowner for storage of the items determined for keeping.

examples: storage bin units, shelving, california closets, garage workbench and cabinets, epoxy coatings for garage floors etc.

Please contact us to schedule a walk-thru for a free estimate and time duration required for your.
