QR Code Link to This Post Computer freezing up? Have a virus? Having difficulty getting on the Internet? I can help!! I am mostly free on Wednesday-Friday afternoons and on most weekends since I work during the day; so do not hesitate to text if you can!

Services start at \$30--if anyone charges any cheaper it probably isn't done right; if it is any more, you're probably paying too much! Keep in mind I will add \$10 for gas if you live in Waukesha county, live as far north as Grafton or as far south as South Milwaukee since I live near the listed suburbs. I can also meet at a neutral location such as a coffee shop (Colectivo) or Barnes & Noble if need be since I am often at those places during the week...

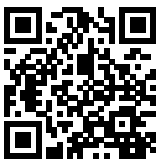

I can remove viruses/spyware/trojans/pop ups, install CD/DVD drives, memory, as well as re-installing Windows XP, Vista, 7 and 8. I also sell laptops & desktops right HERE on Craigslist (see one of them at link below); I can also backup and transfer data from one computer to another (or before performing a 'factory reset' on a system if needed).
