QR Code Link to This Post Sadly having to Rehome my beautiful lab/border collie mix. She is good with other dogs and tolerates cats lol (meaning shes not mean she just doesn't mess with them). She is a loving dog and wants all your attention and then some!! She NEEDS a fenced in yard because she is a high energy dog,though she is very gental. She does like too jump but not on you. She will just jump randomly when shes really happy lol. I will have too see where you live,how big that yard is, other pets and people in household around her and a vet reference. Though it is selfish i dont want her too go so i will only give her too someone that i feel safe with and will keep in touch and keep me updated. Message or call please for more info!!!! Asking a rehoming fee of \$20 to a good FOREVER!
