

# MACHINIST JOB SHOP FOR RampD OR SHORT RUN (Nevada City, CA)

hide t

Location

California

<https://www.genclassifieds.com/x-757157-z>

QR Code Link to This Post Hands on machinist/engineer for 40 years, I'm semi retired with a complete machine and welding shop. I take in one of a kind or short run machine projects. Sorry, (no CNC)

Have an invention to develop, I can carry your idea to proof of concept prototype, (NDA okay) Need a machine component made? I'll work from rough sketch or engineered drawing.

Will repair, rebuild or completely remake outdated machine parts, industrial, marine, automotive, or motorcycle.

MIG or arc welding, cast iron brazing, Babbitt pours, splines, gears, bearing fits, drill a simple hole or tight tolerance,

In the foothills above Sacramento, so I can do anything that can be shipped.

Photos are of some of the more interesting projects that have come thru my shop.

Have a look at some of my other projects on YouTube at: <https://www.youtube.com/watch?v>
