QR Code Link to This Post We are a growing residential property rehab / investment group looking for reliable construction crews for steady work. You need to be able to work with a budget and turn projects around quickly (6-8 weeks). We need people who are solid at what they do, good communicators, able to work through problems, and are knowledgeable in their trades. As a project manager, you need to know everything there is to know about the trades and make sure all the details are done right. Please send me an email describing your qualifications and why you think you are a good fit for this opportunity. Please be prepared to provide references and the address of any job sites you are currently working. We deal in single family residential properties and some.
