QR Code Link to This Post DESCRIPTION:

The Soyabella Soymilk Maker is the elegantly easy way to make fresh soymilk and a variety of other delicious recipes in your own kitchen. Simply add soybeans and water to the Soyabella Soymilk Maker and you get fresh soymilk in about 20 minutes. Soyabella is also great for making milk from a wide variety of beans, as well as for making fresh rice milk, rice paste, sesame paste, and porridge. It can even be used as a coffee grinder and mill by using included accessories.

I am including a website that has some videos to explain how to use the machine.

This is a BRAND NEW machine. The box shows shelf wear. I absolutely love this machine(used to own another...it sold for \$50 with missing parts! The only reason I sold it was my Vitamix now does everything for me. I was lucky enough to stumble across another and wanted to offer it to another family. Why pay the high prices for nut milks when you can make fresh batches yourself.

If interested or if you have any questions please text me at 907-841-7two77. This item is part of my son's fundraising for his school field trip.
 Search: BensFundraiser for more listings. Thank you
