P&H Writes:

Cover long distances with the ORCA 16. It 's spoon bow and upright stern provide a long waterline that helps you easily get some speed up. It is a perfect sea kayak for bay crossings and rock hopping, and thanks to the twin hatches it also allows you to carry enough kit for all of those weekend trips paddling your coastline.

With higher knee position than many sea kayaks making paddling particularly comfortable, the Orca 16 is a very playful yet still controllable kayak that'll suit every adventurous paddler.

Perfect boat for the Chesapeake Bay or the Potomac River touring!
