QR Code Link to This Post Kavik has been a great family member..Unfortunately, my work schedule has changed in a way that does not allow me to have time with him. So in fairness to him he needs a family that can offer more time then I can. He is registered and actually cost me \$1,200 thinking that I would have a lot more time for hunting with him. He is very gentle and attentive...Downsides are he does not like to swim and does not like jumping in to the back of my truck. He is happy to jump in the front seat however. I am asking a \$300 rehoming fee and am very investing in making sure that he is going with the right.
