QR Code Link to This Post 13 inch. Perfect condition, always in a case, less than a year old. Comes with original box, charger and case. Great computer. Getting a pro is the only reason I'm selling it. Comes with macOS Sierra. Still under warranty and qualifies for applecare until Dec. 11.

I am pretty firm on the price. Please don't offer me \$500. The 1.8 version of this mac is selling for \$999 at Best Buy. With tax you can save about \$300 buying mine and it's still under warranty. Plus it comes with a case that it has been in since day 1. Not a scratch. If you can find a better deal buy it instantly.

Please include a phone number with your reply to weed out spam.

Thank you
