QR Code Link to This Post Like the title says, I have a Mid 2013 13" 4GB RAM - 256GB SSD. I saw on eBay that people are still buying/bidding and selling it for mid 600's to 700's.

Overall, it is in pretty good to excellent condition.

I am selling this computer 'AS IS'. Unfortunately, I do NOT have a charger for this, however, it is charged (I used my own personal cable for my other computer to charge it). Chargers nowadays are super cheap for like \$20 online (non-branded). Of course if you're interested in buying it, you can come by to take a look.

The computer was recently reformatted so it is a clean install. If you have any questions or are interested, please just text me or message me.

\$500 OBO. Cash only.!
