QR Code Link to This Post 50 gallon aquarium. Has small leak. Can either be sealed or used as a terrarium. I've sealed the leak before and it held for about 1 1/2 years. I switched from gravel substrate to sand and then it started leaking again, so I'm pretty sure I undid the seal while scooping out the gravel. Leak is so small that I'm not actually sure where it specifically is. I just know it's on the bottom somewhere. I have enough tanks so I'm not gonna bother with resealing this one. \$40 OBO and it's yours. Must pick up. Text or email anytime. Dimensions are about L 4 foot, H 20 inches, W 12
