QR Code Link to This Post We are two dedicated musicians, a female vocalist and guitarist/multi-instrumentalist, with an EP of original material in the works, and 10+ other songs. Experience performing, recording, mixing/mastering. Seeking 2 founding band members (DRUMMER and BASSIST) to learn our existing material, collaborate on new songs, record, and start gigging locally.

We have good chemistry for writing original music, would love to see how your drums/bass can gel with that.

Experience performing and hustling gigs would be a plus. Excellent musicianship, reliability, and chill attitude is a must.

24 years old, looking to play with like-minded individuals of any age. We have a practice space (with amps/drum kit) in Pleasant Hill. Open to practicing elsewhere if you prefer.
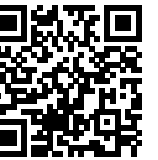

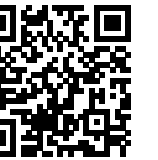

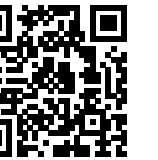

Influences: The Arctic Monkeys, Nirvana, The Cure, Joy Division, The XX, Absofacto, Yeah Yeah Yeahs, Hole, Trent Reznor, Muse, Alabama Shakes, Interpol, She Wants Revenge, Sonic Youth, Blonde Redhead.

If your influences are different but you like our sound, we'd still love to hear from you.
