Koda is a lovely female German Shepard, about 5 years old. Her former owners had to re-home her due to severe allergies. She loves attention, getting brushed, and will use her nose to encourage you to pet her. But if you're busy, she'll lay down and patiently wait until you have time to pet her. Koda is a sweet and patient dog. She is a larger size female and although she gets along with submissive type dogs, she will do best as an only dog in the home. She can't wait to find new owners who love her like her fosters do.

If you are interested in meeting/adopting Koda, please fill out our adoption questionnaire which you can find at <http://www.scgsr.org/adoption/aq/>.

Koda is Spayed, microchipped, vaccinated, and comes with a collar, all included in adoption fee.

If adopting is not a possibility right now, could you join us in saving lives by giving a dog a temporary safe place to live for a week or more? Contact us to find out about fostering. Please refer to our website for contacts www.SCGSR.org.
