The open floor plan is open and airy with tons of natural sunlight, enhanced by the bow front windows in the sunny first floor living room. The unit features gleaming hardwoods throughout and tons of bonus and storage space. All three bedrooms are of good size and the master bedroom features a generous walk in closet. The lower level holds the laundry, kitchen and dining areas as well as an additional sitting area or work/study space. The unit features private storage, off street parking, and private rear patio outdoor space. The building has no special assessments and has had a lot of capital improvements over the recent years including a newer rubber roof and composite decking.
