QR Code Link to This Post Hey, we are a local group that is looking for a drummer to join our forever evolving, creative band. We do a pretty large variety of covers and originals. We basically call our sound pop/folk but mix in many other styles as well so don't read too much into the genre. We need someone who is creative, a team player, and keeps good time. We are recording our 2nd album in mid december and unfortunately our current drummer will have to part us shortly after that. There will be some doors opening for us as we release the album around february. We rehearse once a week (usually monday) with maybe a few more rehearsals at the beginning to get the ball rolling. Looking for someone preferably in their 20's or thirties with time for rehearsals and a little bit of musical homework. We like to have fun, but always want the music to be tight. Hit me up and I can send you a link to our website and can give you more info about us. Thanks for reading, and!
