QR Code Link to This Post I'm seeking a drummer to complete the lineup for an original sludge metal project.

So far, I've got enough material for a full album and live set, but I'd like to collaborate to improve some arrangements. I'm pretty open to drum parts, so you'll be able to make an original contribution. Musical style would be somewhat similar to bands such as Eyehategod, Black Cobra, early Mastodon, etc

I'm looking for someone who is willing to record and gig as soon as possible. I've got a jam space, recording setup, mixing room, and booking contacts.

Victor
504 - 250 - 4800 text or call
I keep pretty late hours, so if you call before noon, I'll probably just return your call later
