QR Code Link to This Post *Hello I am needing to re home my 10 week French Bulldog Black n white color small young Re-homing fee . Good with kids. She *usually sleeps in the bed up under me but she will sleep in her cage with her bed with no problem. I don't keep her locked up in a *cage all day so she roams the house freely. Very playful. Looking for forever home. Has been vet checked.Re-homing fee

*She is a high energy 10 weeks female. She's potty trained, leash trained, bell trained, and crate trained. She loves to be outside and *already loves to hike and camp . She loves to play catch (not much for fetch) and tug of war. She's a real trailblazer with an *adventurer's spirit. Lucy was raised around children as a result he's pretty good with children . She would be best suited in a home *with children and other dogs or pets. To find her forever home !! She is a great home protector. She is very sweet and cute and *already showing signs of high intelligence. Need a home where she will be walked everyday and loved and cared for like she was *part of the family. She will come with her leash, collar and bag of food and papers. I'm asking for a little re homing fee to ensure *she's going to a family that will be able to provide for her.***** **** (415) x** 949 x **13*****
