QR Code Link to This Post Digital currencies are a major passion for me. Living in Hawaii it's hard to get into the space due to state regulations. But there are ways to buy, sell, and trade Bitcoin, Ethereum, Litecoin and dozens of other altcoins. I'd love to show you the ropes.

I will teach you to invest and trade, 100% legally:

- safely and privately, with the industry's most proven and trusted methods
- with very low transaction fees
- without a shady MLM investment program
- how to set up and use a hardware wallet
- how to choose the online exchange(s) that best suit your needs
- how to read charts and conduct your own technical analysis and find other professionals' analyses to guide your investing

There's a lot of money to be made in this space but unfortunately, I see people losing money. Get into this space early, before mass adoption occurs in the next few years. and you'll be very glad you did!

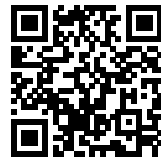

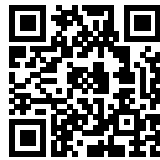

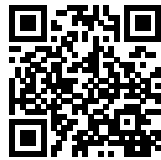

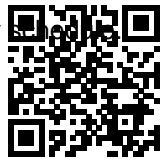

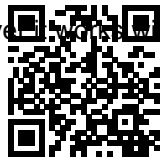

About me:

I have a Master's degree in Organizational Leadership

I have handyman / renovations business

I'm married with 3 kids

I was a high school teacher for several years and love teaching. Call me if you'd like to learn!
