QR Code Link to This Post Re-homing two mosaic female chinchillas. They are mother & daughter so must go together! No exceptions. I am serious in finding them a good forever home. The whiter one is the mother, roughly 4 years old. The greyer one is the daughter, born in my home on October 07, 2015 - so alittle over 2 years old. Both are fairly friendly, asking for \$200 for mother & \$250 for daughter, so a total of \$450 (cash only). The reason I am re-homing them, is just to downsize my animals in anticipation for a growing human family. Serious inquiries only. If I feel like they are going to a good home, I can negotiate on the price. They will come with a care sheet & photo album. Thank.
