QR Code Link to This Post Hello-

My business partner and I are looking for an amateur model to be in our brochure for our rental properties, car business and what may develop into more property management business in Miami.

This is ideal for a college student, stripper, etc. I'm keeping it real, so it is what it is.

Send me a recent full body/face pic please. I don't care what your full time job is or if you even have one.

This does have the potential to involve travel and full time work. A vehicle is not out of the question.

Compensation is fully negotiable. I don't know what is fair for brochure modeling, but I would think \$100/hr would be in the area

Please email me if interested. You may also text. I hate phone.
