QR Code Link to This Post Hi! I'm DJ Atom Steel and my goal is to get everyone at your party dancing and having a great time and I've done it time and time again. There is NOTHING that gets a party going strong, fun, and memorable like a professional dj who knows great music and knows how to energize a crowd.

WORD OF CAUTION for brides & grooms: Leaving the selection of a dj up to a friend or family member because he/she says they can get you a "deal" or hiring a family member to dj because he "saw someone do it once and how hard could it be right?" so you can save a little money on your wedding is a very bad idea. I get inquiries all wedding season long from couples whose choice turned out to be a disaster, disappeared on them, or cancelled and they are now scrambling to find a replacement dj at the last minute. I urge you to read the articles below for more information and hire a PROFESSIONAL DJ directly yourselves...you, the bride and groom should meet directly with that person to be certain they are the perfect fit for your wedding. For best results, do NOT hire a family member or friend to dj. Any money saved will be money lost if it turns out badly and most of the time it does in those situations. Hire someone based on their experience, track record with past clients, attention to details, professionalism, and of course price (but cost alone should not be the sole factor in your decision).

â—• I'm the owner and sole employee - when you plan your event with me, you can count on it going down exactly as we discussed. I NEVER subcontract my jobs to another dj. With my service, you get UNLIMITED phone and email consultations directly with me (your dj) from the time you book with me until your event - NO other dj/company out there will/can give you the personal one-on-one service that I provide. With the bigger, higher-priced dj companies, you actually have no idea who your dj will be until just days before your event...wouldn't you like to "plan ahead" with your dj and make it something really special? or let them cookie cutter your big day like all the rest? You'll spend more and get less value.

â—• Up-front pricing - no surprise fees ever! and I don't charge add'l fees for "extras" like lights unlike other djs. Minimum \$250 per event; weddings starting at just \$485; corporate events starting at \$460; I require just \$100 non-refundable deposit and contract to book your date - when that happens I'm your dj and nothing will change that! - some unscrupulous djs out there have been known to cancel booked events if a better offer comes along leaving you high and dry and searching for a replacement dj at the last minute. If a dj doesn't require a deposit AND a contract, chances are great that you are setting yourself up for a situation just like this...best to keep looking.

â—• I do NOT pressure you for a gratuity - if you wish to tip me however, it would be greatly appreciated but that's entirely up to you...with most dj companies you'll have to tip the dj up to 25% or more and they pressure you big time! My thinking is a tip should be EARNED, not obligatory. Quite frankly, if I haven't met or exceeded your expectations, please do not tip me.

â—• I do NOT advertise at your event with a big gawdy backdrop or table covering with my name sprawled all over it - this is YOUR special day - not my opportunity to acquire future business

â—• I do NOT make ridiculous, unverifiable claims such as "guaranteed lowest price in town" or "best dj in the Midwest", however I do promise you the BEST VALUE for your hard-earned money!

\*\*\* BEWARE of "deals" you might see elsewhere that appear too good to be true - as we all know in life, true quality service takes skill/experience, time, dedication, the right equipment, and exceptional professionalism. Don't have your wedding or event ruined by choosing a discount/amateur dj. Please choose wisely. I'd be happy to meet you in advance to go over your wedding plans, discuss your needs and everything I offer with no obligation. I look forward to helping make your important day a treasured memory! \*\*\*

DJ Atom is the best around. I grew up in Minnesota but had since moved across the country and was planning my wedding from afar. He was so communicative and thorough that despite being over 1,000 miles away, I knew that our reception was in good hands. His questionnaire and his follow-up thereafter were impeccable. He asks you about scenarios, genres, a playlist, a do-not playlist, etc. - it's all a bride wants in a DJ, someone trustworthy, adaptable, and experienced. I would recommend him to anyone in search of a dependable, affordable, and professional DJ. Two thumbs up! - Lauren J., New Orleans, LA

Dear DJ Atom Steel, Thank you so much for your great work as the dj at our daughter's bat mitzvah party this past weekend. We couldn't have asked for a single thing more. You kept the party going, played a great mix of songs, and led a variety of games that kept the evening really upbeat and fun. There was never a dull moment on the dance floor. Even the kids who attended the party came up to us and thanked us for such a fun time (how often does that happen??). It was a true pleasure working with you in the weeks leading up to the event. You were accessible when we had questions and you invited us to submit our "favorites" so that the dance party would be really personal for us. I'd be delighted to recommend you to friends for their events. Thanks again for making our party a great success. Best, Kate L., St. Paul, MN

Great DJ and set-up!! We used him for our annual Halloween 5 years in a row and it was awesome every year!! I would highly recommend him for any event. He ran the costume contest every year and all the kids loved it. We had as many as 125 people at our biggest party so he can handle any size event. Great job all around!! -- John R., Dayton, MN

[Thank you for doing an amazing job, everything was perfect and smooth.] DJ Atom was fantastic at our wedding, he kept the crowd going and made the wedding so much fun. He was very organized and on top of things all night, I would use him again in a heartbeat. Thank you. - Karla L., White Bear Lake, MN

My best friend and I were married Sept. 24th, 2016. We were looking at several djs until we came across DJ Atom. The other djs we had talked to over the phone were very pushy & only seemed like they were interested in how much \$\$\$ they could make & not how happy they could make OUR day. DJ Atom met with us & was not under any circumstances pushy or uninterested in what we had in mind, he was open minded but at the same time helpful in giving us ideas of what works & what doesn't work so well, he really was helpful & made OUR night go smoothly. He was very professional & good at what he does. He really knows how to get the crowd involved & is reasonable when it comes to his rates. I would definitely recommend DJ Atom for your DJ for whatever event you are planning, Thanks DJ Atom!!! - Dan P., St. Paul, MN

DJ Atom Steel was our DJ at our princess children's ball at the Shoreview Community Center. He did a wonderful job, was very professional, arrived on time, was courteous, and was always checking up to make sure we were enjoying our entertainment with him. He was very thorough with consultations before the event, always quick to respond, and made sure that the event was tailored to my wants and needs. I would recommend him for any event, be it a wedding, children's event, or any other event that needs a DJ. I gave him a 5 out of 5 stars. - Cassandra (Twin Cities Party Princess), St. Paul, MN

DJ Atom was perfect for our wedding!! We highly recommend him for your events. He was professional, helpful, very thorough and flexible with change. Thanks again so much for a fun time at our wedding!! [WeddingWire review: DJ Atom was great!! He was perfect for our wedding. He was very flexible and professional!! He was on top of his planning and kept in contact frequently. We definitely recommend him!] - Frankie and Dwayne Posthumus, Coon Rapids, MN

A rave review for DJ Atom! I haven't hired many (or any) DJs before my recent wedding, so I kind of went into this blindly and chose him at random, but I hit the jackpot. He's the best! Prior to the event, he was really, really good about communicating with us and answer any questions we had - emails, text messages, phone calls. His questionnaire is SUPER thorough and takes some time to fill out, but after I did all of that homework there wasn't a doubt in my mind that the entire process from the ceremony to the dancing was going to run smoothly. I was impressed that he was able to take the song I wanted for my ceremony music right off of YouTube, with excellent quality. Go with Atom! You won't regret it! - Tamara B., Minneapolis, MN

My wife and I hired DJ Atom for our wedding and we could not have been happier with our choice. We allowed our wedding guests to submit song requests on their RSVP cards, resulting in an eclectic collection of songs. DJ Atom was able to organize them so not only did all our guests get their song played, but they were played in a coherent order that flowed together perfectly. Everyone had a blast on the dance floor. He also handled the music for the ceremony, and his timing for the different songs for the entrances and exits was outstanding. He was very professional throughout, and went over all the details in depth with me before the wedding. Your wedding reception will be in great hands if you hire DJ Atom Steel! - Ronan S., St. Paul, MN

We loved having DJ Atom as the DJ for our July 2016 wedding ceremony and reception. From the get-go, he made the process fun and easy. He is a professional with a lot of energy and enthusiasm for his job, as well as excellent suggestions and advice on our proposal. He has a great questionnaire you fill out beforehand to make sure all the details are taken care of, and he offers great customer service from the date of hire to the big event. He played the requests that we and our guests made in advance in a way that flowed and kept people on the dance floor. He also did a great job keeping the event on task. Our guests loved DJ Atom too. And to top it all off, he is reasonably priced! Thanks for doing an awesome job, DJ Atom! - Sarah W., St. Paul, MN

Let me bring my passion for music to your special event ... wedding, grad or bday party, private or block party, anniversary, corporate function, school dance, reunion, bar or nightclub, etc. As my past clients will attest to, you don't have to pay a ridiculously high fee to get great service...if you want someone who truly cares and will put much planning, time and effort into your event - it's not just another job for me! - then call or email me today. Let's discuss your needs - consultations and quotes are always FREE with no obligation.

Tips on finding a great DJ: If you're solely focused on price in your dj search, you can probably find a kid on craigslist doing "djing" for less with an ipod, cheap speakers, and a miserable music selection, but you'll likely be very disappointed in the "service". Do they have good reviews/testimonials?, ask about their equipment, do they have a name, a LOCAL phone # (eg 612, 651, 763, or 952 area code..do not trust 888/800/toll-free #s..they are more than likely an out-of-state co who will hire a local dj to do your event - you'll be duped into paying MUCH more \$\$\$ than you need to), and real email in their craigslist ad? If they don't provide all of these, I'd urge you to keep looking! What are they hiding?!? Remember, you get what you pay for especially in a service business like this where quality can vary greatly from one DJ to another...there are only a few PROFESSIONAL DJ's and many imitators/wannabes ....do you really want to trust your special event to the lowest bidder?!? - I offer professional, courteous, dependable service at a price you can afford.

My professional equipment: Dell XPS 17 laptop (3GHz+ processor with 8GB RAM, Windows 10 o/s + optimized for high-performance), Hercules DJ Console 4-Mx, Mackie 402VLZ3 mixer, QSC K-Series K12 powered speakers & KSub subwoofer (these are 1000 watts each! - they ROCK!!! w/crisp, clear sound), Chauvet and American DJ lighting systems (PRO38B LED RC Par Can, 1 Vertigo Tri LED, 1 Sparkle LED, 2 LED moonflower lights, 1 Double Derby, and 1 Laser unit), Odyssey dj table and chair, 3 mikes (incl. wireless), (redundant systems come with me in the rare event of failure).

Call or email me today to book me for your special event. I look forward to adding EXCITEMENT to your party! My rates are VERY reasonable and competitive - you will get high-quality, professional sound and music, and thoughtful planning...without the high cost of many of the big dj companies.

**\*\*IMPORTANT:** If you're getting married, you should MEET your dj BEFORE booking them (I'd recommend meeting at least 2 to 3 dj's to see the vast difference in quality and level of service offered) - very important to make a connection, gather all the best information (testimonials, service quality, equipment used, experience, are free consultations offered?), make an informed decision, and not simply hire the cheapest dj you can find. REMEMBER: NEVER EVER hire a dj without a contract - if they won't do one, walk away! I will be happy to meet you with NO pressure and NO obligation. Do NOT rush into hiring a dj - don't fall for a slick sales talk or "sales" price pressure. Please email or call me and include your phone number so I can reach you. :)\*\*
