QR Code Link to This Post Web company is looking for candidate who has experience building and maintaining websites. Must work in the office. Knowledge and experience in online marketing and social media marketing a plus.

The position also includes customer service with retail customers who have computer problems.

The ideal candidate has the knowledge, experience and passion for this work. Ideal candidate must have experience developing websites and have a strong interest in working with the company to grow our services in web development and online marketing. The ideal candidate can demonstrate results in this area. SEO experience is a plus.

The candidate will WORK IN THE OFFICE during office hours.

This is NOT a position for a remote individual or a position for an outsourced company.

This position requires:

- experience using Joomla for web development,
- experience in web development, particularly in Joomla, PHP, javascript and CSS technologies,
- knowledge and experience of online marketing using current options: social media, websites, video,
- good customer services skills for retail walk-ins,
- experience in SEO with clear results is a plus.

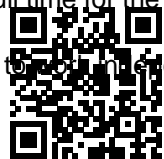

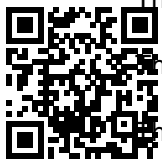

This is a part time position that will grow to full time for the "right" person.

This person must be a team player, able to work independently.

The person must be dependable.

Send resume to express your interest.

The company provides computer repair service, sells computer components, creates web sites and supports businesses.
