

Looking to record professional sounding music in a local studio (Manchester, NH)

Location

Maine

<https://www.genclassifieds.com/x-759683-z>

QR Code Link to This Post My name is Zach. I'm a recording, mixing and a mastering engineer with a Bachelor's of science degree in Audio Engineering and a fully equipped home studio. I am looking for artists eager to get their music recorded and published. I can comfortably record and work on any style of song within my home studio. I'll work hand in hand with you to deliver the best possible recordings and help you further your career and passion in music. I am an experienced producer and I won't rest until you as my client are happy with our product.

My rates are low, but are dependent on how much involved you'd like me to be in the process. I have a musical background so I can also help develop the songs, as well as get your music copyrighted and uploaded to any streaming or download services (Spotify, iTunes, Bandcamp etc.) on top of being able to record, mix and master.

Please email me with your contact information, elaborate on your project a little, share any demoes you may have, and I'll be in contact with you shortly.

My website has more information including my availability, rates, past work, gear list, and a means of scheduling sessions online:
