QR Code Link to This Post I'm looking to trade my truck for a crew cab 94-97 powerstroke or a 99-01 crew cab powerstroke . Now that I've done alot of work to it the truck runs awesome and pulls like a train. Feel free to test drive it if you want. the odometer says 380,000 miles but the transmission has about 70k miles and the engine has about 250k miles. It's a 250 but the rear end is atleast a HD 350. Has gooseneck hitch. Alot of new parts have been replaced in the last year. The 4wd works great. Truck has air intake, straight pipe, ts 6 stage chip, and 100 hp Propane Injection Kit. I've had a couple of these propane kits on my powerstrokes and have had zero problems. All the parts i'm listing have been replaced within the last 8 months.

All new injector o-rings
 completely rebuilt oil cooler
 rebuilt turbo with severe duty rebuilt kit
 new fuel pump Nov. 2017
 New power steering pump
 resealed exhaust manifolds
 new up-pipe donut gaskets
 rebuilt front driveline nov. 2017

I'm sure i'm forgetting other newly replaced parts. I'm looking to trade for a different truck or sell for \$9000. Feel free to contact me anytime..
