Location

Montana<https://www.genclassifieds.com/x-759849-z>

QR Code Link to This Post Yes there is a site big enough for your RV. We have 92 beautiful full hook up sites, some large enough to handle the biggest rigs out there. All sites have 50/30/20 amp power, as well as sewer, water, and free cable. Plus the campground has free WiFi!

The North Spokane RV Campground is conveniently located near shopping, dining and entertainment. Only minutes away you can enjoy the numerous lakes and outdoor activities that Eastern Washington has to share.

Our pads are concrete so you don't have to worry about sinking into the asphalt on those hot summer days. All spaces are 11 feet wide with an attached concrete patio so you can get your slides and awnings all the way out!

Onsite coin operated laundry, seasonal outdoor pool, and our amazing rec room are all available to our guests. Personal showers are available to use as well.

Don't forget, we are Spokane's only Good Sam 10/10*/10 campground three years in a row!

Please call 509-three one five-5561 to check availability and Reserve your stay!
